- Honourable Mention — HDMUN
- STEAM (AI) — Skin Analysis System
- Open House — Water Monitoring System
- All Sindh Youth Spelling Bee — Participant

PROFILE

Computer Science student and co-founder of a live EdTech startup, with hands-on experience building full-stack platforms, desktop applications, and computer-vision tools in Python and C++. Combines deep technical ownership with leadership of a 1,800-student council and a self-founded e-commerce brand. Seeking a software engineering or AI internship to apply product-minded engineering skills to production-scale problems.

EXPERIENCE

Co-Founder & Full-Stack Developer — Nuqta · joinnuqta.org

Live EdTech platform connecting Pakistani students with verified mentors — co-founded at FAST-NUCES

- Co-founded Nuqta from ideation to a live, deployed platform — owning product vision, feature roadmap, and the full development lifecycle
- Designed and built a full-stack web platform with student, mentor, and admin dashboards; secure authentication; mentor profile management; mentorship booking; and real-time data management
- Led mentor onboarding and community building post-launch, continuously shipping UI and feature improvements to grow the platform's network

Contract Sales Representative — State Life Insurance Corporation of Pakistan

- Delivered persuasive client presentations and negotiated terms in a target-driven environment, developing stakeholder communication and objection-handling skills

PROJECTS

Hand Gesture PC Controller — Python, MediaPipe

- Built a real-time computer vision system that lets users control a PC through webcam-tracked hand gestures

FocusFlow — Python, PySide6 (Qt6), SQLite

- Designed and shipped a Windows desktop app with Pomodoro timers, daily goals, streaks, and a 90-day activity heatmap; published as a standalone .exe release on GitHub

TumblePop Clone / Metal Slug Clone — C++, OOP

- Recreated two classic arcade games in C++, implementing collision detection, gameplay mechanics, and clean object-oriented architecture

Responsive Web Designs — HTML, CSS

- Developed multiple responsive websites demonstrating frontend fundamentals and clean UI implementation

LEADERSHIP & ENTREPRENEURSHIP

Captain, Student Council — Aga Khan Higher Secondary School Hyderabad

- Led student initiatives representing over 1,800 students; coordinated events and liaised with administration

Founder, ZBM Lifestyle / President, English Club

- Founded and operated an e-commerce brand end-to-end; organized public speaking events and led coordination across multiple academic team projects
